## Drive in Gallery / Institute AAMI Ljubljana /

Drive In project is a new and unique way of exhibiting artworks in parking garages, manifested only by Institute AAMI on Slovenian ground. So far, we have started our collaboration with Institute partner company GH Park, which manages one of the biggest parking garages in Slovenia (city of Maribor), where the average visit of costumers is 5.000 a day. In the future, we are expecting to expand this project also to other parking facilities in Slovenia. Artists joining the Drive In project have a chance of presenting their work for 5 years, printed on comatex material in the appropriate size for exhibiting in a facility such as a parking garage. The main goal of this project is to help artists to promote their work to a wider audience and to implement art and culture into people`s everyday lives.
