Ljubljana Forum is an annual gathering that combines knowledge and experience of city governance and defines key areas, visions and strategies of the future development of cities. The objectives of the Forum are to connect, enable and encourage good practice cases and concrete cooperation among different stakeholders.

The Ljubljana Forum is an excellent opportunity to strengthen co-operation for better performance of cities and regions in Europe and worldwide and to present industry solutions for cities.

ART EXHIBITION  
POWERED BY

**AAMI** CORPORATION

Ljubljana Forum focuses on future development of cities and I personally believe that combining that urban development with cultural input is very important. This is why we have invited AAMI for the third time already to enrich this networking event with an exhibition of Slovenian artists. For me, being the organizer of the event, it is crucial that the participants feel pleasant and enjoy in the surrounding where the gathering is being held. Thanks to AAMI, I am convinced that also this year this will be the case.

### **Blaž Golob**

Chairman / Ljubljana Forum

I am very proud of the fact that AAMI has an opportunity to participate in such a innovative and breakthrough gathering by setting up an art exhibition of prospering AAMI artists. Urban development has much to do with culture, and therefore Ljubljana Forum offers us new possibilities for cultural development not only in Ljubljana, but also in other cities around the globe. The participants will definitely enjoy the event being surrounded by wonderful artworks of Slovenian painters.

**BTC**

The BTC Company is one of the leading commercial property development companies in the region. Under the brand name BTC City, it manages one of the largest business, shopping, entertainment, recreational, and cultural centers in Europe, located in Ljubljana, the capital of Slovenia. Additionally, it also manages two shopping centers in Novo mesto and Murska Sobota, and provides first-class property management services for the largest Slovenian clients in the commercial real estate service sector. The BTC Company also runs a logistics service business unit, which holds the leading market position in FMCG logistics in Slovenia. Recently, the BTC Company established many new international business partnerships within its BTC Living Lab platform, which enables Industry 4.0 and Society 5.0 promising solutions to be tested and further developed in a real testing environment.

The promotion of culture in Slovenia is the common goal of the BTC Company and the AAMI Corporation. In striving towards the same goal, the BTC Company supports the Corporation, which creates opportunities for the expansion of artistic activities and projects in the fields of culture and art in Slovenia, and makes it possible for artists to connect with foreign cultural centres. In addition, the AAMI Corporation consults and aids in purchasing artworks; a constituent part of their activity is also raising awareness and educating the broader public about the arts.
