art expo ljubljana is back

ART Expo Ljubljana is not only an art fair. It is much more than that as AAMI team strives very passionately towards building an art community. This art community is getting bigger and stronger by the minute and after a four-year-break caused by the Covid-19 epidemic we are back offering you the best possible place to manifest our common progress at the ART Expo Ljubljana event. The third edition of the expo will take place from 12th to 15th October 2023 at the main location Brdo Congress Centre, a part of Brdo Estate where many state protocol events are being held. The estate is located in the close proximity of the Ljubljana International Airport and highway links. Many events will also be held at BTC City Ljubljana, general partner of ART Expo Ljubljana, which is one of the largest shopping, business and leisure centres in Europe.

biennale back in time

The 1st ART Expo Ljubljana took place in September 2017 in a slightly different form than the following versions. 142 artists from 15 different countries presented their artworks during a 14-day event, which was set up in an “art village” in BTC City Ljubljana. In September 2019, the 2nd ART Expo Ljubljana took place as an upgraded version, presenting more than 350 artists from over 30 countries on two locations. The main location was the Ljubljana Exhibition and Convention Centre.

The second location of the expo was BTC City Ljubljana, where several individual exhibitions and other performances took place as well. More than 80 different events were held as part of the 2nd ART Expo Ljubljana.

expo content & numbers

At the 3rd ART Expo Ljubljana we will be presenting art of more than 500 exhibitors from 45 different countries in addition to more than 250 companies. We will execute around 100 events in only 4 days and the visitors will be able to enjoy themselves at music concerts, theatrical performances, live painting sessions, art talks, fashion shows, lectures, workshops and other events connected to arts and culture. During the expo, numerous fields of art will be presented – all from visual to performing arts such as painting, drawing, sculpturing, photography, graphic design, fashion design, ceramics, crafts, music, drama etc.

become a part of our story

The specialty of this leading international art project in Slovenia is the fact that exhibitors consist of individual artists, galleries, art societies and associations, cultural institutions and companies which appreciate connecting art with different industries and business. ART Expo Ljubljana was created with the intent to offer the exhibitors and participants media exposure, new contacts and potential business opportunities. We are looking forward to having you as an exhibitor at our ground-breaking initiative which is bringing art closer and more accessible to the public and successfully connects culture with the business world.

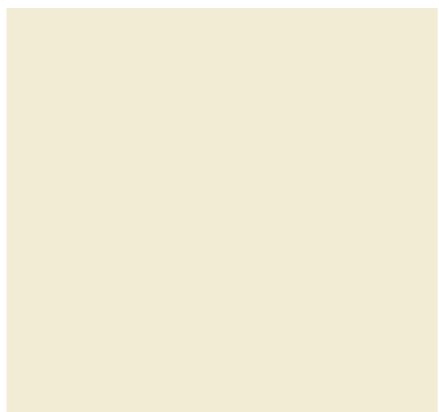

AAMI CORPORATION

The aim to widely connect the business sphere with arts and culture industry has led to the existence of AAMI Corporation. What started as a vision of the young founder Miha Murn to make art more accessible and to help artists present themselves on the market, has escalated to the development of several companies and brands which are all united under one corporation.

The international corporation combines various companies and brands: Institute Atelje Art Murn International, company Mega-Graf Ltd., AAMI Foundation, AAMI Times newspaper, private business Botticelli Club, ART Expo Ljubljana, MGM International Business and public cultural Salvador Club.

The business group has activities in Slovenia, Italy, Austria, Hungary, Czech Republic, France, Netherlands, Spain, United Kingdom, Turkey, Russia, United Arab Emirates, India, China and other countries.
